

## AVID Targets Disadvantaged Students -- Especially Latino Students

**AVID** targets students who have traditionally been left out of the college-going mainstream. There were 3,647 **AVID** students in Region 5 middle and high schools during 2003-04. The following chart compares the ethnicity of AVID students to that of non-AVID students in Region 5. It shows that AVID is particularly effective at reaching Latino students.

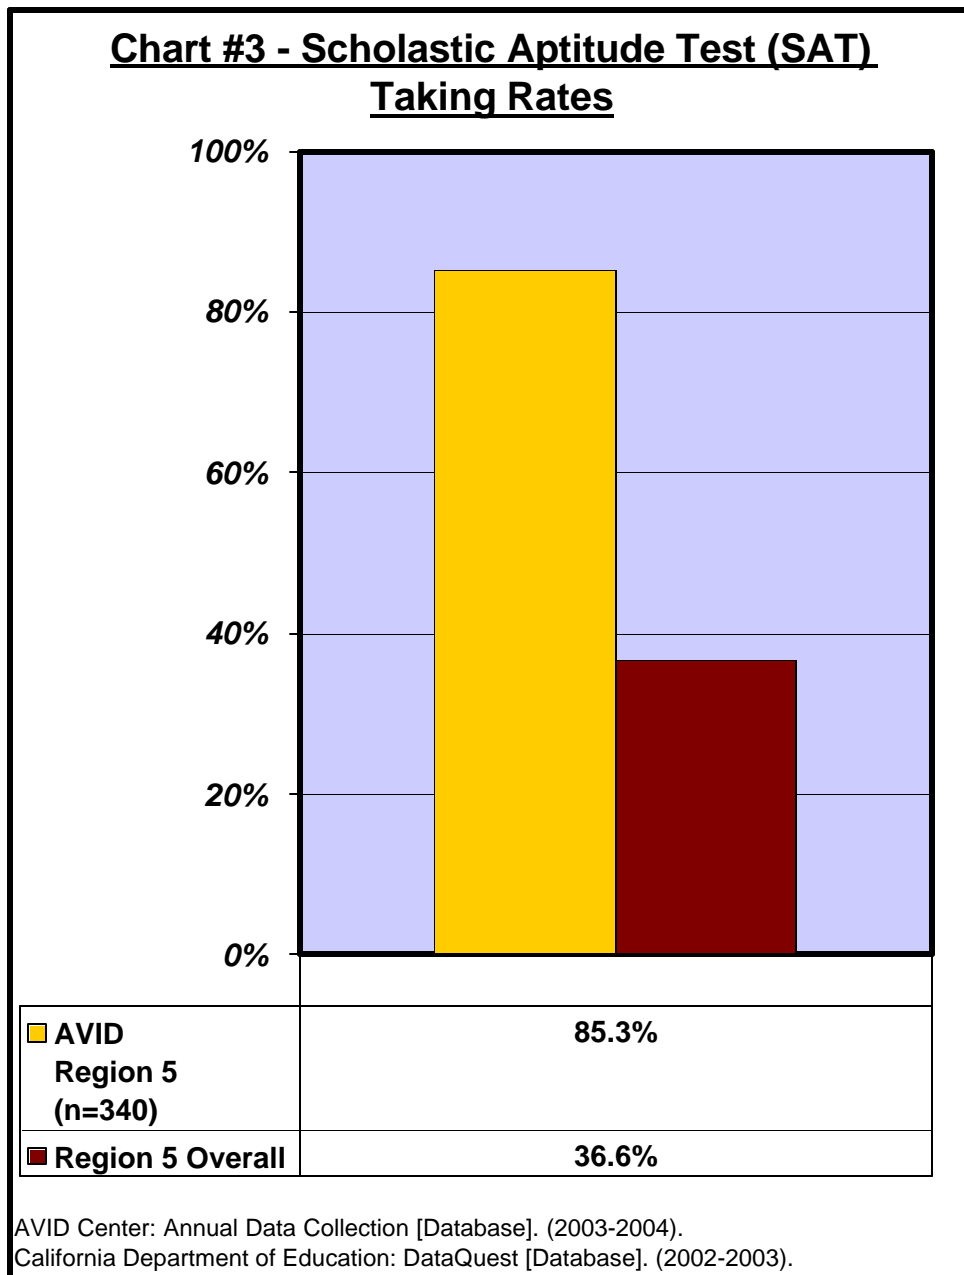

## AVID Low Income/Diverse Students Meet the UC/CSU "a - g" Course Requirements

Completion of the "a - g" curriculum is very strong evidence of a serious college-going culture. By this important measurement, **AVID** students (74.1% completion rate) outperformed their peers in San Diego County (35.0% completion rate)—indeed, throughout the state (33.5% completion rate)—by a wide margin.

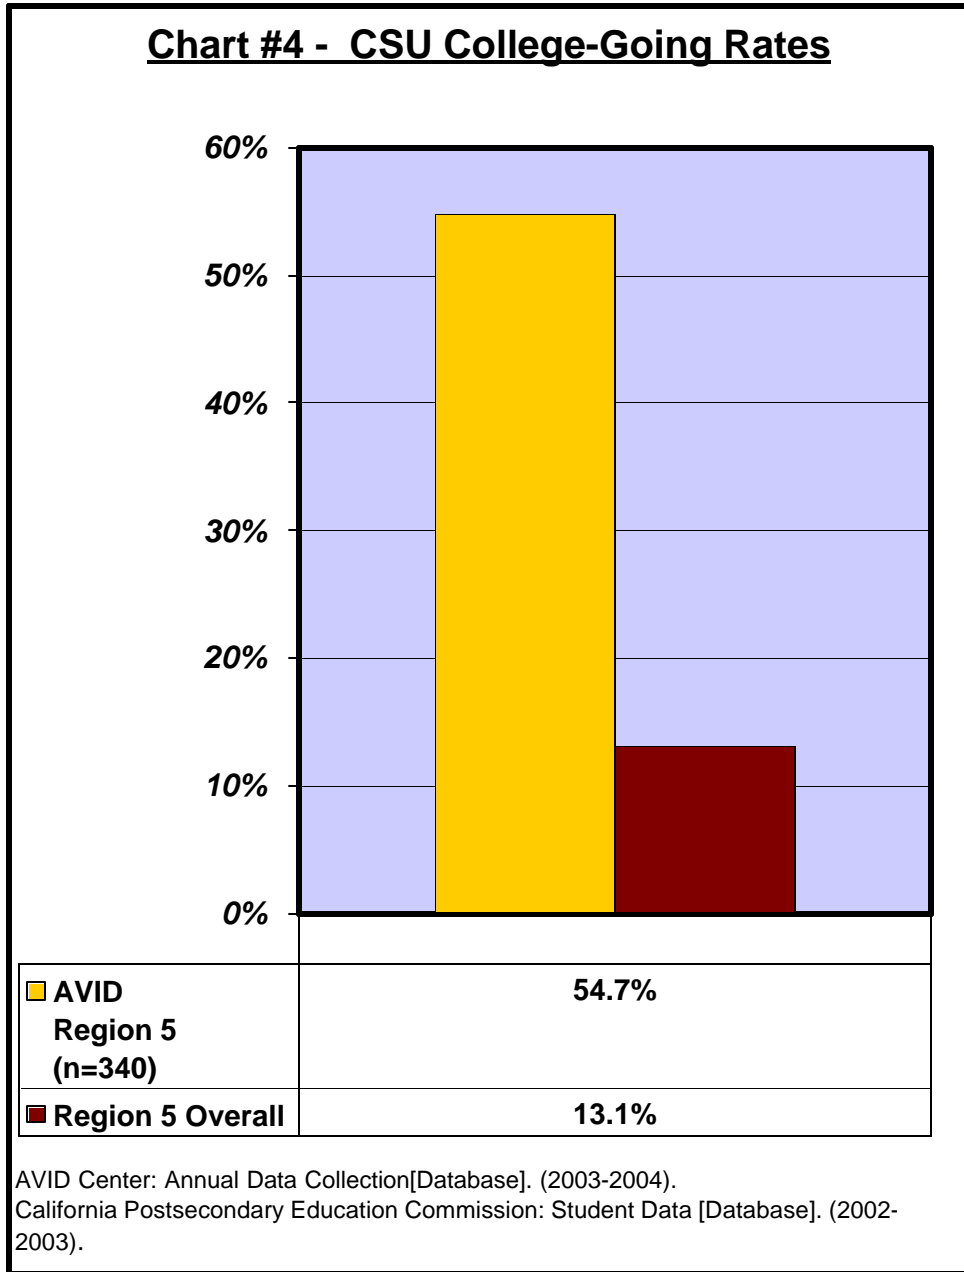

## AVID Students Take the S.A.T. at More Than Three Times the Rate of Non-AVID Students in Region 5

Taking the S.A.T. is an important indicator of motivation, achievement and future success. In 2003-04, 85.3% of **AVID** students sat for the S.A.T. exam compared to 36.6% of non-**AVID** students in Region 5.

**AVID Helps Close the Achievement Gap -  
AVID Students are Accepted by the  
California State University**

The following chart shows that **AVID** is extremely successful in getting disadvantaged students accepted into the CSU system. AVID students are accepted into the CSU system at a rate **four times** that of non-AVID students in Region 5.

**AVID Students are Accepted by the  
University of California**

**AVID** students in Region 5 are accepted into the UC system at a higher rate than that of non-AVID students in the Region.
